May 2019

Dear Participants and Pensioners:

Previously correspondence was sent to you advising you of the pilot program to allow pensioners the ability to work as a Safety Officer, Estimator or Project Manager/Project Engineer for a contributing employer while still collecting their pension.

The pilot program was extended for one year and was due to terminate on August 31, 2019. **This is to inform you that the Board of Trustees has extended the pilot program through December 31, 2020.**

Keep in mind, the rules have not changed. If you are receiving your pension or planning to retire in the near future, in order to be eligible for the program, you must seek work with a contributing employer and you must inform this office, in writing, if you accept a position as a Safety Officer, Estimator or Project Manager/Engineer. Failure to notify the Fund Office prior to commencement of such work will disqualify you from participating in the program.

Pensioners receiving a pension due to disability are ineligible for this pilot program unless they have attained Normal Retirement Age (62).

Please contact this office if you have any questions concerning this matter or any other matter at 1.800.344.1515.

Sincerely,

BOARD OF TRUSTEES
